Dear Hiring Manager,

I am writing to express my strong interest in Frontend Developer position at your company. As a dedicated front-end developer with professional experience at XENOptics Co., LTD and a proven track record of building scalable, user-centric applications, I am excited about the opportunity to contribute to your team's success.

Currently serving as a Junior Front-end Developer at XENOptics Co., LTD since October 2023, I have been developing and maintaining Network Management System (NMS) and Element Management System (EMS) applications. In this role, I design and implement user-friendly interfaces with interactive visualizations for real-time monitoring, utilizing React JS, TypeScript, Redux Toolkit, and modern UI libraries such as MUI and HeroUI.

I am confident that my combination of professional experience, technical expertise, and commitment to excellence would make me a valuable addition to your development team. Thank you for considering my application. I would welcome the opportunity to discuss how my background, skills, and enthusiasm align with the needs of your team.

Sincerely,

Khin Su Wai (Erica)
